

Simon Dannevang

Project Manager

[Simon](#)

Denmark, København +4560161002 sddannevang@gmail.com <https://simondannevang.dk/>

Summary

Project Manager with 3+ years of experience leading multidisciplinary teams and delivering complex IT projects on time. Skilled in stakeholder alignment, Scrum, and problem-solving, with a track record of boosting efficiency by 20% through process optimisation. I am passionate about bridging technical and business needs. I thrive in collaborative environments and adapt quickly to new tools and am eager to learn.

Professional Experience

Portaplay Co. – Project Manager

København, Denmark - September 2022 – June 2025

- **Project Execution & Governance:** Managed multiple projects such as the production of 2 award-winning games (*Gerda: A Flame in Winter*, *Liva's Story*) and a Danske Bank interactive museum installation, delivering within deadlines through iterative planning, risk mitigation, and stakeholder alignment.
- **Stakeholder Alignment:** Improved cross-team collaboration (design, dev, QA), boosting milestone delivery by 20% via Jira/Scrum workflows and clear RACI frameworks.
- **Problem-Solving:** Streamlined QA processes, reducing bug resolution time by **30%** through actionable reports and adaptive planning.
- **Communication:** Facilitated client workshops and translated technical details for non-IT stakeholders (e.g., bank executives), ensuring that everyone had a clear understanding of what was planned.
- **Workshop Facilitation:** Led quarterly cross-departmental alignment sessions to reprioritise backlogs, reducing redundant work by 15%.
- **Reporting:** Created and implemented project dashboards in Excel and Jira to track milestones and risks, enabling data-driven decision making for the leadership team.

EG Corp. – UX Researcher, Mobile Team

Aalborg, Denmark - Marts 2022 - September 2022

- **Agile Mindset:** Cut delivery timelines by **15%** via sprint optimization and retrospective-driven improvements.
- **User-Centric Approach:** Researched and advocated for end-user needs in a permit system, enhancing adoption.
